ULTRA TEC

How it Works

Ultra Tec is specifically formulated in Premium Unleaded 90 and Unleaded 87 Gasoline, Diesel and Ultra Low Sulphur Diesel (USLD) to clean your vehicle's engine valves and combustion chamber by removing deposits. This means your engine can deliver optimum performance and maximum fuel economy for your vehicle to drive better, cleaner, longer and **SAVE YOU MONEY**.

The Benefits of ULTRA TEC 90/87 Gasoline

More miles

- Improves fuel economy
- Saves you money

Better performance

- Improves vehicle acceleration
- Restores lost power for easier climbs
- Eliminates hesitation, stalling and rough idling caused by engine deposits

Cleaner air

- Superior engine cleanliness
- Reduces vehicle exhaust emissions

Longer engine life

- Keeps vehicle running like new
- Removes engine deposits to return engine to optimum performance
- Maintains condition of engine

The Benefits of ULTRA TEC Diesel/USLD

More miles

- Improves fuel economy
- Saves you money

Better performance

- Keeps combustion chamber clean for smooth engine performance
- Removes deposits
- Restores lost power for easier climbs

Cleaner air

- Reduces unburned fuel
- Reduces vehicle exhaust emissions

Longer engine life

- Keeps vehicle running like new
- Protects against deterioration of fuel quality
- Maintains condition of engine
- Improves lubricity of USLD fuel to protect delicate engine parts
